## Technical Specifications:

1. Top Layer : Highly anti abrasive protective overlay is made of second hardest substance in the world after diamond
2. Melamine impregnated decorative film protects the floor from UV rays and fading.
3. HDF : Superior water resistant high density fibre board protects the floor from water spillage and contributes to a stronger locking.
4. Balancing layer of the same thickness as the decorative film makes sure that the product is dimensionally stable.
5. Super-Click-State of art locking technology makes sure that the product is in good shape even after regular wear and tear.

- Dimension : 1215 x 192 x 8mm
- Packing : 8 Planks / 1Box = 20.10sqft.
- Level of Use : En13329
- Abrasion Resistant : En133329, annex E Ac4
- Impact Resistant : En13329, annex F Ic2
- Reaction to Fire : DIN4102 T1 . B1
- Dynamic Coefficient Friction : En13892 m2 0.3
- Formaldehyde Emission: According to E1 Standards.

1215 x 192 x 8mm
